Penguin body mass

Your name here

Summary

This report compares the body mass of three kinds of penguin. The Gentoo penguins were the heaviest, at 5,092 g on average.

Data

The measurements are for 333 penguins on three islands. Rows with missing values were removed before the analysis.

Results

Species	Penguins	Mean body mass (g)	Mean flipper length (mm)
Adelie	146	3,706	190
Chinstrap	68	3,733	196
Gentoo	119	5,092	217

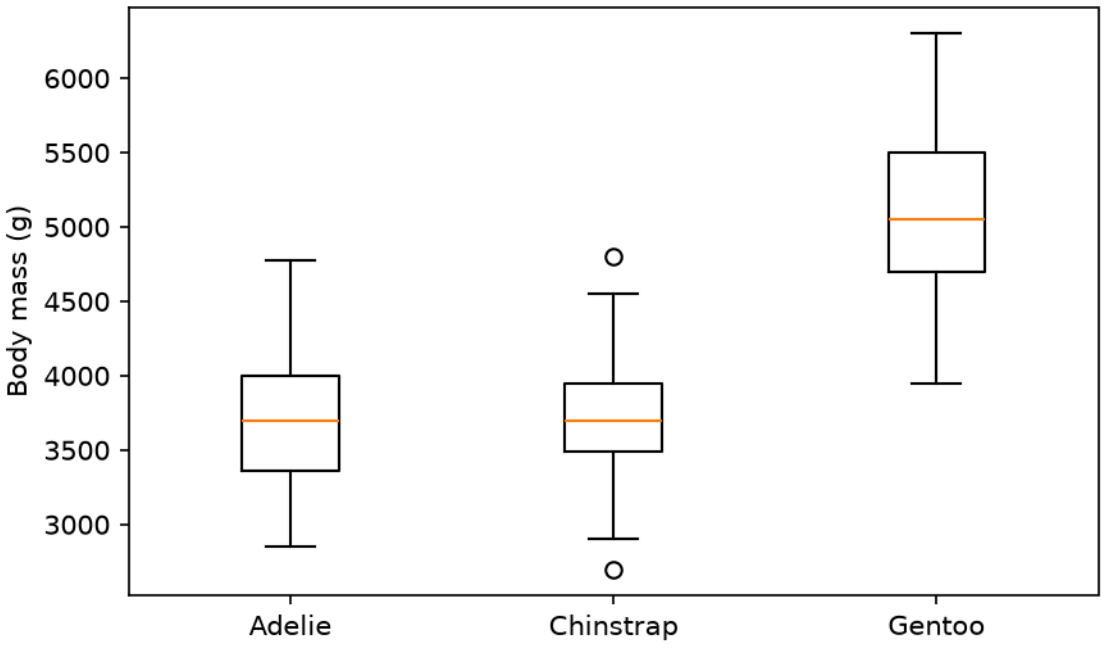

Figure 1: Body mass of each kind of penguin

Conclusion

Gentoo penguins are clearly heavier than the other two kinds.
