Body mass of Gentoo penguins

Your name here

2026-11-10

Abstract Male Gentoo penguins are heavier than females. This report measures the difference.

1 Introduction

Penguins near Palmer Station, Antarctica, were measured between 2007 and 2009 [1]. We use the version of the data in the palmerpenguins package [2], and look at one species, Gentoo.

2 Data

After removing incomplete rows, there are 119 Gentoo penguins in the data.

3 Results

On average, males were 805 g heavier than females (Table 1 and Figure 1).

Table 1: Mean body mass of Gentoo penguins, by sex

Sex	Mean body mass (g)
female	4680
male	5485

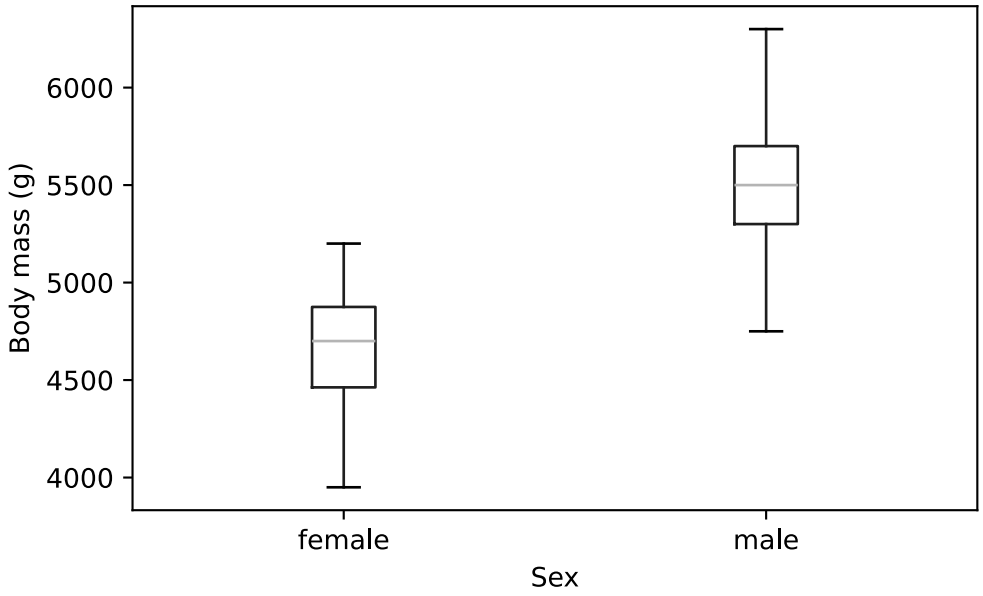

Figure 1: Body mass of Gentoo penguins, by sex
